LuxeCrown

The chairside way to long-lasting crowns

LuxeCrown creates long-lasting crowns quickly and economically - directly chairside. The easy-to-make, **revolutionary**, semi-permanent composite crown is highly esthetic and shows remarkable longevity of up to 5 years. It is ideal for crown and bridge work and implant procedures where phasing of treatment is recommended.

LuxeCrown offers **confidence** and **natural beauty** at an affordable option for your patients while delivering high-strength, quality and the reliability you've come to expect from DMG.

Discover the possibilities for you and patients with LuxeCrown.

Icon Caries Infiltrant

The revolutionary treatment for incipient caries and white spots

Caries infiltration is the breakthrough in microinvasive technology that fills, reinforces and stabilizes demineralized enamel, without drilling or sacrificing healthy tooth structure. Ideal for incipient caries that are beyond preventive therapies yet too early for restorative treatment, Icon puts an end to the traditional "wait and see" approach.
